Will the water use area of the new well be the same area as the decommissioned well? Yes No

6. EXPECTED SPECIFICATIONS OF THE WELL AND PUMP (Please attach test hole log, if available)

Approximate date when construction will begin: _____, 20____.

Estimated total depth of the well: _____ feet. Estimated well casing diameter: _____ inches.

Estimated pump column diameter: _____ inches. Estimated pumping capacity: _____ gallons per minute.

Well Driller: _____ Address: _____ Phone: _____

7. I certify I am familiar with the information contained in this application, and its restrictions, rules, and regulations, and to the best of my knowledge and belief such information is true, complete, and accurate.

This form must be completed in full and be accompanied by a nonrefundable, \$50.00 filing fee (payable to the Lewis & Clark Natural Resources District), and submitted to the District office at 608 N. Robinson, P.O. Box 518, Hartington, NE 68739.

Date _____ Signature of Applicant _____

Date Approved _____ NRD Representative _____

This form must be completed in full and accompanied by a nonrefundable, \$50.00 filing fee (payable to the Lewis & Clark Natural Resources District), and submitted to the district office at:

Lewis & Clark Natural Resources District
608 N. Robinson
P.O. Box 518
Hartington, NE 68739

Please fill out the application completely and correctly. An incomplete or defective application will be returned to the applicant. Corrections must be submitted to the NRD within 60 days or the application will be cancelled. The District will either issue the permit with conditions attached, or deny the permit, no later than 30 days after receipt of a complete and properly prepared application and application fee.

PERMIT RESTRICTIONS

1. Well permits are required prior to construction or a late fee of \$250.00 will be assessed.
2. Permits are not required for wells designed to pump 50 gallons per minute or less, test holes, or dewatering wells with an intended use of 90 days or less.
3. A permit must be obtained for an existing well that previously did not require a permit but will be modified into a well for which a permit is required as defined in the District's rules and regulations.
4. If construction of the well is not complete within one year of permit approval, a new permit will be required and the previous permit will be cancelled.
5. The well authorized by this permit must comply with well spacing requirements set forth by state statutes and any further spacing requirements set forth by the District.
6. Water wells to be constructed within 50 feet of a bank channel of a stream must have a surface water right for that stream from the Nebraska Department of Natural Resources before construction of the well.
7. Any person who commences or causes construction of a well for which the required permit has not been obtained, or who knowingly furnishes false information regarding such permit, shall be guilty of a Class IV misdemeanor.
8. This permit does not register the well with the Nebraska Department of Natural Resources. All wells are required to be registered with the Nebraska Department of Natural Resources by the water well contractor (or by the water well owner if the owner constructs the well) within 60 days after the well is completed.

ADDITIONAL COMMENTS AND/OR RESTRICTIONS:

If possible, please mark the proposed well site with a flag
